About the Electrica

Electrica is a peer reviewed, open access, online-only journal published by the İstanbul University-Cerrahpaşa.

Electrica is a continuously published journal in English. The journal has moved to continuous publication by volume from Volume 25. Rather than publishing content into three online issues per year, all articles are published into a single annual (January-December) volume which will fill throughout the year as each new article is published.

Continuous publication model allows articles to be immediately released online rather than waiting for other articles in the issue to be completed. This model enhances the visibility and accessibility of the latest developments in the field.

Abstracting and Indexing

Electrica is covered in the following abstracting and indexing databases;

- Web of Science- Emerging Sources Citation Index
- Scopus
- Compendex
- DOAJ
- TUBITAK ULAKBIM TR Index
- Gale
- EBSCO
- China National Knowledge Infrastructure (CNKI)

All content published in the journal is permanently archived in Portico.

Aims, Scope, and Audience

Electrica aims to contribute to the literature by publishing manuscripts at the highest scientific level on all fields of electrical and electronics engineering. The journal publishes original research, review articles, and letter to the editors that are prepared in accordance with ethical guidelines.

The scope of the journal includes but not limited to; electronics, microwave, transmission, control sytems, electrical machines, energy transmission and high voltage.

The target audience of the journal includes specialists and professionals working and interested in all disciplines of electrical and electronics engineering.

You can find the current version of the Instructions to Authors at https://electricajournal.org/en/instructions-to-authors-1013.
